DataDot Technology Canada

DataDot Technology Canada provides corporations, retailers and individuals with a product that can assist in protecting property from theft and in returning stolen items to the owner. The microdot technology is proven both in Canada and worldwide to significantly reduce theft by over 75% and to increase arrest and prosecution success rates.

DataDot can be used on anything from books, televisions, computers, digital cameras, tools, motorcycles, ATVs, watercraft, snow machines, boats & motors, laptops, generators and even copper wire.

The unique code is entered on a database registering the owner along with any serial number the item may have.

This database is accessible by Law Enforcement agencies 24 hours a day, allowing instant identification. Only one dot needs to be located to trace the owner of the asset and a search of the database can be done by the unique code or by serial number if one was entered.

The DataDot experience in Canada and other countries, has been a dramatic drop in theft rates.

If your company is interested in meeting with DataDot Canada to find out more about their program and how it can be tailored to benefit your business please contact Crime Stoppers at 705-675-9171 x5692 or go to www.sudburycrimestoppers.com.

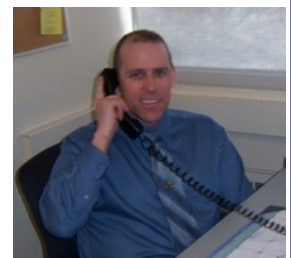

Crime Stoppers Gets New Coordinator

Sudbury Rainbow Crime Stoppers is happy to have Rob St. Marseille join our team as our new OPP coordinator.

Over his 15 year career Rob has been stationed in Thunder Bay, Nipigon, Sudbury and finally Espanola.

Rob is the President of the Walden Mountain Bike Club and coaches mountain biking and cross-country skiing. He also races mountain bikes and represented the OPP at the World Police & Fire Games on three occasions.

Rob brings a world of experience and knowledge to Crime Stoppers and is a very welcome addition to our team.

Our Newest Partner

Crime Stoppers is a non profit registered charitable organization that relies solely on the generosity of the public for donations and for the support of the community to keep our much needed and exceptionally effective service available to the Sudbury and District area.

A key to the success of our local Crime Stoppers organization is the involvement of local merchants, businesses and organizations through either the donation of time or a financial commitment.

THE GOOD GUYS ARE WINNING THANKS TO YOU!

Sudbury Rainbow Crime Stoppers would like to thank Ellis Don as well as our many other sponsors for their continued support.

Prevent Bike Theft

Spring and Summer bring an increase in the theft of bicycles. Most bicycle theft occur under the cover of darkness and happen in all areas of the city and surrounding area.

Police investigations are often hampered by the fact that most bike owners don't record the model and serial number of their bike.

Bicycles are often recovered weeks or months after the theft and without the model and serial number owners cannot be identified; thus the bikes cannot be returned.

In the spirit of crime prevention and to assist investigators police recommend that residence lock up their bicycles and record model and serial numbers for future reference.

Moose Advisory

As long as there are moose in Ontario, they will be found on our highways. Even in areas with very low moose density, moose are still attracted to roadways and can pose a hazard to drivers. With Spring around the corner winter road salt, mosquitoes and black flies will bring moose and other wildlife out of the bush and on the roadways.

The Greater Sudbury Police Service and the Ontario Provincial Police are asking that drivers be alert to moose being a hazard for vehicles traveling on our roadways. Drivers are asked to be aware of the risk of motor vehicle collisions involving moose and to drive accordingly in areas where the potential for moose to cross roadways exists.

Care and attention when driving remains your best defense against a moose-vehicle accident.

While accidents are reported year round, most occur between May and October. The three most critical months are June, July, and August.

We all enjoy driving around our beautiful province and seeing the wildlife; but beware. As amazing as these animals are, they can also be hazardous to drivers. A fully matured moose can weigh as much as 1,000 pounds. This WILL DO DAMAGE to your car, yourself, and possibly to others.

Moose have legs that are approximately 4 feet tall. This, combined with their large bodies, can make moose contact with a car or truck different than a smaller animal. The vehicle will strike the moose in the legs, sending the body into the windshield. Very seldom is this a fatal hit to the moose, and it will thrash around trying to get free.

Knowing these things, **slow down and stay alert.** Keep yourself safe and keep our wildlife here for others to see and enjoy.

Tri-Force Regimental Ball

Sudbury Rainbow Crime Stoppers wishes to thank everyone who participated in their 10th Annual Tri-Force Regimental Ball. This premiere black tie fundraising event was held on Saturday, February 7th, 2009 at the Caruso Club.

VIPs from the Greater Sudbury Police Service, Ontario Provincial Police, RCMP and Military were on hand in Number One Dress uniform along with many of the community's finest in formal dress. Also in attendance was Gary Murphy, President of Crime Stoppers International.

Piper Mary MacKenzie ushered the VIPs into the event. Rich Griffin from EZRock 105.3 FM and Reverend Jeremy Mahood reprised their roles as Masters of Ceremony and provided an entertaining evening for all. Guests were treated to a sumptuous five course meal with complementary wine and two host bars, and danced the night away to the music of Sudbury's own "Frontline" and Absolute Entertainment. Local musician Emily Cortolezzis provided dinner music.

The evening included silent and live auctions featuring exceptional high end items donated by generous businesses. Again this year, the Tri-Force Regimental Ball held the popular Treasure Chest Key Draw with the 3 chests having a combined value of over \$3,000.00.

A special thank you goes out to the Greater Sudbury Police Auxiliary and Ontario Provincial Police Auxiliary for shuttling guests to and from the event as well as assisting with a number of activities throughout the evening. Cambrian College Criminal Justice Association and the Cadets from 200 Wolf Squadron Air Cadets, 2912 Sudbury Irish Royal Canadian Army Cadets Corp and #134 Royal Canadian Sea Cadet Corp, Admiral Mountbatten were on hand to assist throughout the evening as well.

Upcoming Events
